Austin Weekly Deal Activity

June 6th, 2021

You've got to love the consistency of deal activity out of Austin. This week, we had several rounds of \$20M or greater, which results in these companies attracting more talent to Austin, expanding our economy, and setting the stage for long lasting employment demand. And per the usual, we had a couple acquisitions to boot this week, which means more talent is cycling back into the economy, joining the amazing growing companies we have, and creating the next cohort of influential startups. Shoot, no wonder Austin is the biggest winner from tech migration! I hear the people are saying Austin will have the most growth of all tech hubs over the next 10 years. Kool-Aid is here, drink up!

Now, a brief word from this week's Company Spotlight (click on Subscribe Now to feature your company in an upcoming newsletter)!
