Austin Weekly Deal Highlights - Feb 14, 2021

By [Mason Rathe](#) • Issue #195 • [View online](#)

Love at first swipe? For my older crowd, that's a pun on the way kids date these days, but more importantly, a nod to the biggest IPO in Austin history! Dating and networking app **Bumble** made its public market debut this week, and what a match... The Austin-based company raised nearly \$2.2 billion in its IPO, which then [saw its shares climb](#) as much as 85% on their first day of trading, taking the company's market cap above \$13 billion. Quite possibly the more notable feat here is what CEO and founder **Whitney Wolfe Herd** is doing for women entrepreneurs. At 31, she is the youngest-ever woman CEO to take a company public, which required that she fight through a tangled path of sexism and disputes. Her company now has 42 million monthly active users, and with an 11.6% stake, she sets a new bar of the term self-made.

And the timing couldn't be better, Happy Valentine's Day love birds.
